## Safeguarding and Child Protection Policy

### Purpose and Aims

The purpose of Little Frogs Pre School safeguarding and child protection policy is to establish a clear framework to protect and promote the welfare of those children and young people in our care. The policy aims to ensure that:

- All our children are safe and protected from harm.
- Policies and practices support a safe environment and encourage safe behaviour.
- Everyone – staff, children, Trustees, visitors, volunteers and parents – understands their responsibilities and expected conduct regarding safeguarding.

#### 1) Ethos

*'Every child deserves the best possible start in life and the support that enables them to fulfil their potential.'* Statutory Framework for the Early Years Foundation Stage (EYFS)

At Little Frogs Pre School safeguarding is everyone's responsibility. We strive to create a safe, supportive environment where every child can thrive. Each child is assigned a trusted key adult to ensure that they feel secure, listened to, and protected – especially those unable to communicate, such as babies and very young children.

We work closely with parents, carers and external agencies (e.g. Early Help, Front Door including MASH, Police, Social Care) to promote children's Safety and well-being. Through meaningful relationships and engaging activities, we help children build essential life skills and protective behaviours.

This policy aligns with the principals of the *Children Act 1989* and related statutory guidance as below:

## 5) Reporting Child Protection Concerns

All child protection concerns must be reported immediately. If you believe a child is at risk or experiencing abuse, inform the DSL without delay.

All staff, including the DSL, are required to request support for known or suspected abuse to appropriate agency via the appropriate agency i.e. the Devon County Council Front Door which includes Early Help and Multi Agency Safeguarding Hub (MASH) or the Police.

If a visiting professional (e.g. Health Visitor or Early Years Team member) receives a disclosure, they must report it to the setting's DSL and follow their own agency's procedures.

All records must be securely stored in the child's protection file.

## 6) Recognising concerns, signs and indicators of abuse

Any child – regardless of background, family circumstances, or setting – can be at risk of abuse.

All staff must maintain a vigilant attitude of '*It could happen here*' and be proactive in identifying early signs.

Abuse and neglect are forms of maltreatment where a child may be harmed by another person's actions or failure to act. These issues are complex, with multiple concerns overlapping. Abuse can occur:

- Within the family (familial abuse)
- In institutions or community settings
- Online or
- Through peer interactions (child-on-child abuse)

Children may be abused by adults or by other children. Abuse may be physical, emotional, sexual or take the form of neglect. It can also occur in contexts outside the home, known as contextual safeguarding.

Staff and Volunteers must be alert to:

- **Physical Abuse:** signs include unexplained injuries, bruises or fear of adults.
- **Emotional Abuse:** such as persistent criticism, rejection or witnessing domestic abuse.
- **Sexual Abuse:** including inappropriate sexual behaviour, knowledge, or disclosures
- **Neglect:** failure to meet a child's basic needs, such as food, hygiene, medical, or supervision.

Contextual safeguarding risks include:

- Female Genital Mutilation (FGM)
- Child Sexual Exploitation (CSE)
- Child Criminal Exploitation (CCE)
- Radicalisation and extremism
- Online Abuse, including grooming and image based harm.

Staff and volunteers should also recognise that parental issues – such as substance misuse, mental ill health, and domestic abuse – can significantly increase a child's vulnerability.

Child-on-Child abuse may include:

- Bullying
- Physical or sexual violence
- Sexual harassment

Staff and Volunteers must be aware of the barriers children may face in disclosing abuse, especially non-verbal children. They should be sensitive to changes in behaviour, emotional distress or physical signs that may indicate harm.

*Further guidance on the four categories of abuse and detailed indicators can be found in Appendices 2 & 3*

## **7) Online Safety Responsibilities**

As outlined in *Safeguarding Children and Protecting Professionals in Early Years Settings: Online Safety Considerations* (2019), our setting has a duty to support children in developing safe online behaviours. Even if technology is not used on-site, children are likely exposed to it elsewhere. It is our responsibility to help them understand the value of technology and how to use it safely.

Online safety is less about the technology itself and more about how the individuals use it. Unsafe behaviours, including witnessing or experiencing abuse online, can significantly impact a child's emotional well-being. Therefore, modelling safe and responsible online behaviour must be embedded in our daily practice.

## **8) Children who have special educational needs and/or disabilities (SEND)**

All children have the right to be safe. However, research shows that children with SEND are up to three times more likely to experience abuse. As a setting, we recognise the increased risks and are committed to protecting every child in our care.

Key Risk factors include:

- Assumptions that disabled children are not abused
- Fewer opportunities to disclose concerns or seek help from someone else
- Gaps in training between disability and safeguarding professionals
- Limited access to personal safety education (e.g. NSPCC PANTS)
- Communication or cognitive challenges related to the child's specific needs.

We remain vigilant and proactive in addressing these vulnerabilities through inclusive safeguarding practices.

## **9) Prevent**

Under the *Counter Terrorism and Security Act 2015*, early years providers have a legal duty to prevent children from being drawn into terrorism. This is a key part of our safeguarding responsibilities.

We are committed to:

- Assessing the risk of radicalisation in our setting
- Embedding robust safeguarding policies that reflect local guidance (e.g. DSCP)
- Ensuring our staff are trained to identify and respond to concerns, and to challenge extremist views.
- Protecting children and staff from extremist content, including online

These actions are part of our broader duty to keep children safe from all forms of harm. *For more information see appendix 2 and 3.*

## **10) What to do if you are concerned**

If a child makes a disclosure or allegation of abuse against an adult or other child or young person, it is important that you:

- Stay calm and listen carefully.

- Reassure them that they have done the right thing in telling you.
- Use open prompts (e.g., *tell me...*, *Explain to me...*, *Describe to me...*) – avoid leading questions
- Be honest: explain you must share this with the DSL
- Never promise to keep a secret
- Report to DSL soon as possible.
- Record the disclosure or incident sign and date it using our safeguarding procedures or log

The child's voice whether verbal and/ or non verbal must be central - listen, believe and act to protect.

## 11) Whistleblowing

Creating a safe environment for children means ensuring staff feels confident to raise concerns. Whistleblowing is vital part of safeguarding.

### Key Principles:

- **Duty to Report:** All Staff have a duty to report concerns about the behaviour or actions of colleagues or other adults.
- **Reporting Concerns:** Concerns must be reported to the DSL
- **Concerns Involving the DSL:** If the concerns involves the DSL, report to the Chair of Committee using the setting's whistleblowing policy.
- **Serious Concerns:** All concerns will be taken seriously and handled in line with safeguarding procedures.

### Whistleblowing Procedures

Our whistleblowing procedures are designed to ensure transparency, accountability, and protection for those raising concerns:

- **Clear Communication:** Procedures are clearly communicated to all staff and volunteers during induction and through ongoing training.
- **How to Report:** Staff are informed when and how to report concerns, including verbal and written methods.
- **Process After Reporting:** The process followed after a concern is raised is outlined in this policy and includes investigation, documentation and appropriate action.
- **Protection from Reprisal :** Staff are assured that their concerns will be treated seriously and without fear of reprisal or victimisation.

### External Support

If staff do not feel able to raise concerns internally, they can contact:

- **NSPCC Whistleblowing Hotline:**  
 **0800 028 0285** (8:00 AM – 8:00 PM, Monday to Friday)  
 [help@nspcc.org.uk](mailto:help@nspcc.org.uk)

## 12) Escalation Procedures

- If a concern relates to the Playleader/ Manager/DSL, it must be reported to the **Chair of Committee**, whose contact details are readily available to staff.
- Advice will be sought for the Local Authority Designated Officer (LADO) or Safeguarding Team where necessary.

## 13) Commitment to a Safe Culture

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so. All Staff are reminded of their duty to raise concerns about attitudes or actions of colleagues through our whistleblowing and complaints policies.

## 14) Managing Allegations Against Staff or Volunteers

We are committed to safeguarding children and ensuring that any allegations against staff or volunteers are taken seriously and handled in line with statutory guidance.

### When an Allegation Must Be Reported

An allegation must be reported if a person has:

- Harmed or may have harmed a child.
- Possibly committed a criminal offence against, or related to a child.
- Behaved in a way that indicates they may be unsuitable to work with children.
- Displayed concerning behaviour towards their own or other children outside of work.
- Been the subject of a historical allegation but still has contact with children.

### Reporting Process

- All allegations must be reported **immediately** to the **DSL**.
- If the allegation concerns the DSL, it must be reported to the **Chair of Committee**.
- The DSL or Chair must contact the **Local Authority Designated Officer (LADO)** and follow their procedures, including submitting the LADO notification form.

### Actions Following an Allegation

The DSL or Chair or Manager will:

- Ensure the child is safeguarded from the alleged abuser.
- Contact parents/carers if advised by the LADO.
- Ensure a fair and transparent process for the staff member involved.
- Notify **Ofsted within 14 days** of the allegation.
- Follow disciplinary procedures, including suspension if necessary.
- Act on outcomes from any LADO strategy meeting.
- Refer to the **Disclosure and Barring Service (DBS)** if the staff member is dismissed or would have been dismissed due to the allegation.

### Additional Guidance

- Allegations may arise from actual abuse, misinterpretation, reminders of past trauma, or attention-seeking behaviour. All must be treated seriously and objectively.
- A copy of *"What to do if you're worried a child is being abused"* is kept with this policy and outlines full procedures.

## 15) Low-Level Concerns

A low-level concern is any behaviour by an adult working with, or on behalf of the setting that:

- Contravenes the staff code of conduct, including conduct outside of work, and
- Falls below the harm threshold or is not serious enough for a LADO referral.

Examples include, (but are not limited to):

- Over familiarity with children
- Showing favouritism
- Taking photographs of children on personal devices
- One-to-one engagement in a secluded area or behind a closed door,
- Humiliating and belittling children.

### Reporting Low-Level Concerns

- All low-level concerns must be reported to the **DSL**.
- The DSL will then inform setting managers promptly, based on the nature of the concern..
- If unsure whether the low-level of concern meets the harm threshold, the DSL will consult with the LADO.

- Staff are encouraged to self-refer if they believe their actions could be misinterpreted or fall-short of professional standards.

### **Recording and Monitoring**

- All concerns are documented in writing, including context and actions taken.
- Records are stored confidentially and securely and will be kept in a locked cabinet in the office.
- Records are reviewed regularly to identify patterns. If patterns emerge, the DSL will determine next steps, which may include LADO referral or disciplinary action.

## **16) Confidentiality and Information Sharing**

- All safeguarding matters are treated as confidential.
- Information is shared in a need-to-know basis in line with *Working Together to Safeguard Children*
- Staff must share relevant information with agencies to protect children-data
- Staff must not promise confidentiality to children if it compromises safety.
- Parental consent is sought before sharing concerns unless doing so increase risk. If unsure, the MASH consultation team can be contacted.
- Safeguarding files are stored securely and separately from other child records.

## **17) Safeguarding Training**

### **Staff Training Requirements**

All staff will receive safeguarding training that meets the criteria in Annex C of EYFS 2025, renewed at least every two years. The training will ensure staff can:

- Understand and follow the setting's safeguarding policies and procedures
- Identify signs of abuse and neglect including **See annexe 1.**;
  - Changes in Behaviour or well-being
  - Unexplained injuries
  - Concerning comments from children
  - Inappropriate adult behaviour (e.g. sexualised language, excessive one-to-one attention, image sharing)
  - Suspected abuse and neglect outside the setting, including FGM risks.

### **Induction and Ongoing Support**

- All new staff and volunteers receive safeguarding information during induction, including key policies.
- Regular updates are provided via staff meetings, supervisions, and bulletins.
- All staff are required to read *What to do if you are worried a child is being abused: Advice for practitioners*.

## **18) Mobile Phones and Electronic Devices**

Little Frogs Pre School has clear safeguarding procedures for the use of mobile phones and electronic devices (e.g. smartphones, tablets, smartwatches, laptops, cameras) within the setting and during visits:

- Staff, Volunteers and Visitors must follow the setting's policy on device use, including restrictions on image capture and sharing.
- Personal devices must not be used to take or store images of children.

- All devices with imaging or internet capabilities must be used only in line with safeguarding protocols in our Online Safety policy
- Visitors are asked to store phones securely and not use them in areas where children are present.
- The setting refers to [Safety and Security Online | SWGfL](#) website to guide policy development and ensure best practice.

### 19) Safeguarding Scope and Policies

### Appendix 3 : Safeguarding Optional Extras

The following safeguarding issues are considered child protection concerns and must be referred immediately to the appropriate agency. Guidance and procedures are available via South West Child Protection Procedures.

**E-Safety:** Children may be exposed to bullying or exploitation through technology. Settings must implement security filtering and acceptable use policies. Staff must avoid compromising their position of trust, especially on social media. Mobile phones and electronic communication with children or families are prohibited unless for approved business. Suspected internet abuse or cyberbullying must be reported.

**Child Sexual Exploitation (CSE):** CSE involves children receiving something in exchange for sexual activity. It may occur via technology without the child's awareness. Exploiters often use power, coercion, or intimidation. Settings must treat affected children as victims, gather information, and refer to Social Care. Organisations must have robust policies, engage in multi-agency work, and support victims.

**Child on Child Abuse:** Children may abuse peers through bullying, sexual violence, or harassment. Staff must report concerns, and DSLs should assess support needs for both victim and perpetrator.

**Forced Marriages (FM):** FM is illegal and involves marriage without valid consent under duress. It includes physical or emotional pressure and differs from arranged marriages. Offences include taking someone overseas to force marriage or marrying someone lacking capacity to consent.

#### Under-age Marriage

In England and Wales, individuals must be 18 or older to legally marry or enter a civil partnership. Any marriage involving someone under 18 is unlawful and may require safeguarding intervention.

#### Female Genital Mutilation (FGM)

FGM is illegal in the UK and considered child abuse. It includes performing, assisting, or enabling FGM on UK nationals or residents, even abroad. All suspected cases must be reported immediately.

#### Ritualistic Abuse

Using physical or psychological violence to expel spirits or demons is abusive and criminal, regardless of intent. Such practices must be reported and treated as safeguarding concerns.

#### Sexually Active Under 18

Professionals must assess sexual relationships involving under-18s for signs of abuse or exploitation. The protocol helps identify when protection or support services are needed.

#### Safer Recruitment and Selection

All staff working with children must be properly vetted. Recruitment panels must include trained members, and staff must meet safeguarding employment standards to ensure child safety.

**Honour Based Violence**

Crimes committed to protect or defend family/community honour. Signs include self-harm, isolation, restricted activities, or FGM-related infections. Concerns must be reported to the appropriate agency.

**Trafficked Children**

Children moved across or within borders for exploitation (e.g. sex work, domestic labour, crime). Suspected cases must be reported to the relevant authority.

**Domestic Abuse**

Abuse between intimate partners or family members, including physical, emotional, or financial harm. Staff must report concerns where children are affected or exposed to domestic abuse.

**Private Fostering**

When a child under 16 (or 18 if disabled) is cared for by someone who is not a parent, close relative, or legal guardian for more than 28 days. Settings must notify the Local Authority if aware of such arrangements.

**Breast Flattening**

A harmful practice involving pressing or massaging a girl's chest to delay breast development. It is a form of physical abuse and must be reported.

**Spiritual Abuse**

Coercive or controlling behaviour in a religious context, including shaming, fear, or manipulation. It can cause emotional harm and must be addressed as a safeguarding concern.

### 6.3 Visitor or intruder on the premises

The safety and security of the premises is maintained at all time and staff are vigilant in areas that pose a risk, such as shared premises. A risk assessment is completed to ensure that unauthorised visitors cannot gain access.

**Visitors with legitimate business** - generally a visitor will have made a prior appointment

- On arrival, they are asked to verify their identity and confirm who they are visiting.
- Staff will ask them to sign in and explain the procedures for the use of mobile phones and emergency evacuation.
- Visitors (including visiting VIPs) are never left alone with the children at any time.
- Visitors to the setting are monitored and asked to leave immediately should their behaviour give cause for concern.

#### **Intruder**

An intruder is an individual who has not followed visitor procedures and has no legitimate business to be in the setting; he or she may or may not be a hazard to the setting.

- An individual who appears to have no business in the setting will be asked for their name and purpose for being there.
- The staff member identifies any risk posed by the intruder.
- The staff member ensures the individual follows the procedure for visitors.
- The setting manager is immediately informed of the incident and takes necessary action to safeguard children.
- If there are concerns for the safety of children, staff evacuate them to a safe place in the building and contact police. In some circumstance this could lead to 'lock-down' of the setting and will be managed by the responding emergency service (see procedure 01.21 Terrorist threat/attack and lock-down).
- The designated person informs their designated officer of the situation at the first opportunity.
- In the case of a serious breach where there was a perceived or actual threat to the safety of the children, the manager person completes a Confidential safeguarding incident report form) and copies in their line manager on the day of the incident. The owners/trustees/directors ensure a robust organisational response and ensure that learning is shared.

## 06.4 Uncollected child

If a child is not collected by closing time, or the end of the session and there has been no contact from the parent, or there are concerns about the child's welfare then this procedure is followed.

- The designated safeguarding lead is informed of the uncollected child as soon as possible and attempts to contact the parents by phone.
- If the parents cannot be contacted, the designated person uses the emergency contacts to inform a known carer of the situation and arrange collection of the child. Little Frogs Pre School will endeavour to get more than two emergency contacts where possible.
- After one hour, the designated person contacts the local social care out-of-hours duty officer if the parents or other known carer cannot be contacted and there are concerns about the child's welfare or the welfare of the parents.
- The designated safeguarding lead should arrange for the collection of the child by social care.
- Where appropriate the designated safeguarding lead should also notify police.

Members of staff at Little Frogs Pre School do not:

- go off the premises to look for the parents/carers
- leave the premises to take the child home or to another carer
- offer to take the child home with them to care for them in their own home until contact with the parent is made
- a record of conversations with parents/carers should be made and recorded on the child's file with parents/carers being asked to sign and date the recording.
- This is logged on the child's personal file along with the actions taken. Confidential safeguarding incident report form should also be completed if there are safeguarding and welfare concerns about the child, or if Social Care have been involved due to the late collection.
- If there are recurring incidents of late collection, a meeting is arranged with the parents to agree a plan to improve time-keeping and identify any further support that may be required.

## 06.5 Missing child

In the building at Little Frogs Pre School

- As soon as it is noticed that a child is missing, the member of staff informs the designated person who initiates a search within the setting.

### Online Safety

It is important that children and young people attending Little Frogs Pre School receive consistent messages about the safe use of technology and can recognise and manage the risks posed in both the real and the virtual world.

Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks. The issues are:

*Content* – being exposed to illegal, inappropriate or harmful material

*Contact* – being subjected to harmful online interaction with other users

*Conduct* – personal online behaviour that increases the likelihood of, or causes, harm

- Only reputable sites with a focus on early learning are used (e.g. CBeebies).
- Video sharing sites such as YouTube are not accessed due to the risk of inappropriate content.
- Children are taught the following stay safe principles in an age appropriate way:
  - only go online with a grown up
  - be kind online **and** keep information about me safely
  - only press buttons on the internet to things I understand
  - tell a grown up if something makes me unhappy on the internet
- Staff at Little Frogs Pre School support children's resilience in relation to issues they may face online, and address issues such as staying safe, appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age-appropriate ways.
- All computers for use by children are sited in an area clearly visible to staff.
- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at [www.iwf.org.uk](http://www.iwf.org.uk).

The setting manager ensures staff have access to age-appropriate resources to enable them to assist children to use the internet safely.

Strategies to minimise risk include:

- Check apps, websites and search results before using them with children.
- Children in Early Years should always be supervised when accessing the internet.
- Ensure safety modes and filters are applied - default settings tend not to ensure a high level of privacy or security. But remember you still need to supervise children closely.
- Role model safe behaviour and privacy awareness. Talk to children about safe use, for example ask permission before taking a child's picture even if parental consent has been given.
- Make use of home visits to inform your understanding of how technology is used within the home and the context of the child with regards to technology.

Check privacy settings to make sure personal data is not being shared inadvertently or inappropriately. - Key persons are supervised by the setting manager or deputy.
- Supervision meetings are held in a confidential space suitable for the task
- Key persons should prepare for supervision by having the relevant information to hand.

### Content

The child focused element of supervision meetings must include discussion about:

- the development and well-being of the supervisee's key children and offer staff opportunity to raise concerns in relation to any child attending. *Safeguarding concerns must always reported to the designated person immediately and not delayed until a scheduled supervision meeting*
- reflection on the journey a child is making and potential well-being or safeguarding concerns for the children they have key responsibility for
- promoting the interests of children.
- coaching to improve professional effectiveness based on a review of observed practice/teaching
- reviewing plans and agreements from previous supervisions including any identified learning needs for the member of staff
- During supervision staff can discuss any concerns they have about inappropriate behaviour displayed by colleagues, but must never delay until a scheduled supervision to raise concerns.

### Recording

- Key person supervision discussions are recorded and is retained by the supervisor and a copy provided to the key person.
- The key person and supervisor must sign and date the minutes of supervision within 4-6 weeks of it happening and disagreements over recorded content must be minuted.
- Each member of staff has a supervision file that is stored securely at all times.
- Concerns raised during supervision about an individual child's welfare may result in safeguarding concerns not previously recognised as such, these are recorded on Safeguarding incident reporting form and placed on the child's file. The reasons why the concerns have not previously been considered are explored.
- Additional safeguarding or welfare decisions made in relation to a child during supervision are recorded on the individual case file. The supervisor (if not the designated person) should ensure the recording is made and the designated safeguarding lead is notified.

### Checking continuing suitability

- Supervisors check with staff if there is any new information pertaining to their suitability to work with children. This only needs to be recorded on the supervision meeting record.
- Where staff are on zero hours contracts or are employed as and when needed, their line manager completes the staff suitability self-declaration form quarterly, and/or at the beginning of every new period of work.

- Regarding the use of agency staff/support workers/self-employed persons there is an expectation that as part of the agreement with agencies they have sought information regarding their employee's suitability to work with children. Line managers must review this regularly.
- The position for students on placement is the same as that for agency staff

### **Exceptional Circumstances**

Where exceptional circumstances prevent staff from conducting supervision as outlined in this procedure, the line manager is informed in writing, a copy placed on the supervision file and the appropriate actions agreed to ensure that the setting meets its obligations within the EYFS
